pipeline_elements

- Timestamp: `2026-04-21 00:56:07`
- Source file: `/ceph/project/sharmalab/dnimrich/cd8atlas/code/pipeline_elements.py`

Loading from ../../data/adata_umap_clustering_n=15_mindist=0.3_res=0.5.h5ad

Loaded adata with with shape (91098, 4000)

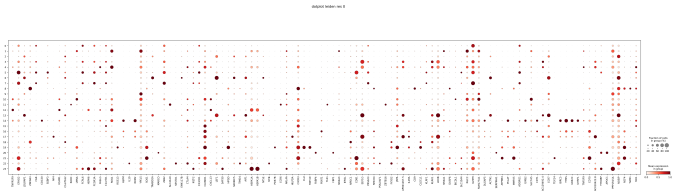
Preserved existing `counts` layer from loaded adata

---

6. Dotplot All Markers

Finding significant genes with FindAllMarkers (via Seurat in R)

FindAllMarkers will use up to 32 R worker(s)

Ran FindAllMarkers in R, keeping up to 5 markers per cluster and selected 108 genes


Plotting 108 genes from adata.var[`findallmarkers_selected`]
